KARL EDU MARTIN GOMEZ

Aspiring Software Developer

ddotbone1@gmail.com

+639279316116

Lapu-Lapu City, Cebu

SUMMARY

Aspiring Full-Stack Developer with a strong foundation in front-end development using React, Vite, ShadCN UI, and Django templating. Currently studying Computer Science at the University of Cebu, and actively expanding backend skills to become a versatile full-stack developer. Passionate about building user-centered applications, learning new technologies, and contributing to real-world projects.

SKILLS AND INTERESTS

- Teamwork
- Continuous learning
- Self-improvement
- Problem-solving
- Logical and analytical thinking
- Building and designing front-end interfaces
- Learning full-stack development (React, Django, Next.js)
- Testing and optimizing website performance
- Exploring backend concepts like APIs, authentication, and databases
- Willingness to collaborate and use version control tools (e.g., Git)

EDUCATION

Bachelor of Science in Computer Science

University of Cebu – Lapu-Lapu and Mandaue

2022 – Present

- Coursework in **Data Structures & Algorithms, Relational Databases, Software Engineering, Compiler Design, Computer Organization, and Neural Networks**.
- Experienced with **C, Java, C#, Python, JavaScript, TypeScript, React, ShadCN UI, Tailwind CSS, Django, and Vite**.
- **Gradiant (PWA)** – Designing and building a progressive web app that streamlines grading, attendance, and performance analytics for educators.
- **Restaurant POS & CRUD App** – Developed using **C# / .NET** and **SQL** to manage sales, inventory, and employees in a mock restaurant system.
